MORE MEN ARE PUT TO WORK AT LOCAL SHOPS

Baseball Scandal Will Be Sifted To Bottom

ULTIMATE EFFECTS OF NEW SENSATION NOT YET REVEALED

Two Giants Are Named In Statement By Judge Landis

SAND REPORTED BRIBERY OFFER

O'Connell Confesses He Offered \$500 To the Phillie Player

(Associated Press)

WASHINGTON, Oct. 2.—While high baseball officials here, including Commissioner Landis and President Heydler of the national league, had taken no further steps today in the bribery scandal, involving the New York Giants, fresh sensation was thrown into the situation by the charges of Jimmie O'Connell, young Giant outfielder, that he is being made "the goat" in the case.

Other members of the New York club, O'Connell claims, were involved in the attempt to get Heinie Sand, Philadelphia shortstop, to "throw" last Thursday's game for \$500.

O'Connell's statement, declaring that "they were all in on it" and disclosing details of the bribery plot for the first time, was followed by a declaration from Barney Dreyfuss, president of the Pittsburgh club, that the calling off of the world's series, slated to start here next Saturday, "would not be too far to go to get the right results."

Dreyfuss added fuel to the flame by charging that a year ago his star third baseman, Pie Traynor, was tampered with by Cosy Dolan.

NEW YORK, Oct. 2.—As preparations were being made to receive baseball prodigal son of the nation, back to the hearts of the people, a new scandal has been revealed the ultimate effects of which cannot be estimated.

Commissioner Landis, who announced last night that Jimmy O'Connell and Cosy Dolan of the Giants, had been declared ineligible for attempted bribery, will continue his investigation in Washington today in an effort to discover who put the \$500 in the hands of the substitute outfielder, who originated the scheme now credited to Dolan, and to what extent it was practiced during the season.

Heinie Sand, Philadelphia shortstop looms as the hero in baseball's latest family tragedy.

The Commissioner acted upon information furnished by Sand, who charged that O'Connell had offered \$500 to him to throw the games between the Giants and the Phillies on September 27, New York won the contest 5 to 1 and clinched the pennant.

O'Connell, called before the Commissioner, President Heydler of the National league and John McGraw, manager of the Giants, confessed to offering the bribe and implicated Cosy Dolan, coach of the team, Captain Frank Frisch, George Kelly and Ross Young, the latter trio, composing the backbone of the team.

Frisch, Kelly and Young were completely absolved by the Commissioner following a hearing, but Dolan, whose testimony in favor of himself was of "such a character as to be unacceptable," the Commissioner said, was blamed as the man who instigated the plot.

Immediately after announcing the story to the Associated Press in New York, Commissioner Landis left for Washington to take over supervision of details for the world's series, which is now expected to be played in an atmosphere whose drama can only be guessed.

Captain Frank Frisch was the only Giant remotely involved, who could be reached for a statement.

"I was dumbfounded when called before Commissioner Landis," Frisch said. "I hope the whole matter will be cleared up."

PEACE PROTOCOL ADOPTED

HEAD OF A WHITE MAN DISCOVERED NEAR BIRMINGHAM

Oxmoor Lake Dragged By Officials For Deceased's Body

AXE BELIEVED TO HAVE BEEN USED

Acid On Face Hinders Work of Identification Probers Assert

(Associated Press)

BIRMINGHAM, Oct. 2.—Discovery of the head of a white man which evidently had been severed from the body with a sharp instrument, near Oxmoor, a Birmingham suburb, today brought a score of officers to work on a case that developed many mystifying angles.

The head had been badly disfigured by the use of acid, authorities said. The discovery was made by Newton Curl, an Oxmoor grocer, who was a former deputy sheriff. It was concealed in a clump of bushes.

It was believed that identification would be impossible, except by the teeth and the shape of the head. The acid had eaten deeply into the flesh. Authorities later ordered Oxmoor lake dragged, expecting to find the remainder of the man's body.

The man was believed to have been about 30 years of age.

Officers were running down the few clues at hand in an effort to determine whether the crime was a continuation of Birmingham's "axe murder" record.

Quantity of Booze Is Taken by Police

Twenty-seven and a half gallons of liquor were destroyed by police officers of Decatur Wednesday and the owner was chased but without success. He remains at large and as yet is unidentified. Following a request from a deputy sheriff of Lawrence county that they seek to locate a man said to have stolen an automobile at Hillsboro, Decatur officers made a careful search finding where the man sought, is believed to have lived, and also finding in his room many gallons of whisky.

Officials stated that the automobile believed to have been stolen by the same man in whose room the twenty-seven gallons of whisky were found, is now held by officers at Hillsboro.

Brave Youngster Refuses to Weep With Broken Arm

Hoyte Adams, Jr., 2-year-old son of Mr. and Mrs. Hoyte Adams possesses a broken right arm, but if the member is causing him any pain, the child does not let the fact be known. He plays as usual, using his left hand.

The arm was broken near the elbow Sunday morning, when the little fellow tripped over his small umbrella and fell to the sidewalk. The child took no notice of the broken arm neither did his parents who were with him, until after church. The child sat through the church service and gave no intimation as to the condition of his arm. Even when a physician repaired the member, the child paid little attention, crying only a very little when the arm was set.

ROOSEVELT FOLLOWS IN FATHER'S FOOTSTEPS.

THEODORE ROOSEVELT

Just how far will Colonel Theodore Roosevelt follow in the foot steps of his illustrious father? Thus far their lives have been nearly parallel. Both have been colonels in the United States army. Both have been Assistant Secretaries of the Navy. Both have been Republican nominees for the Governorship of New York. Colonel Roosevelt stepped from the Governorship into the Vice-Presidency and then into the Presidency. The younger Colonel Roosevelt still must win the Governorship to continue in his father's footsteps.

GO TO CHURCH PLAN IS GIVEN A BOOST

Committee Reports To Central Methodist Congregation

The "Go to Church" committee of the Central Methodist church made a report through its chairman, C. W. Mathews, during the intermission at the Standard Training School last night.

Following a statement as to plans being executed, Mr. Mathews urged full and faithful efforts on the part of the membership of the Central Methodist church in securing "old members out to church and new people in the church" during the month of October.

The usual class membership was present in Dr. W. G. Henry's department last night, it being one of the strict rules of the doctor, that he will not issue a certificate to any member of the class Friday night, who has missed a single recitation.

One of the most interesting sections of Dr. Henry's last evening's lesson was his reference to the several grades set up in all modern Sunday Schools. There is the cradle room from

Whites and Blacks Engage In Riots

(Associated Press)

HARRISONBURG, Va., Oct. 2.

News of three nights of rioting between white and negro populations of Bridgewater, a college town, six miles south of here, reached Harrisonburg today, with the resumption of communication interrupted by the overflow of rivers in this section.

One white boy had been shot in the leg, a half dozen or more negroes had been severely beaten and many others have been placed under arrest.

Mayor Arey declared today, however, that if the negro population obeys his edict to remain off the streets for several days, he thought "the whole affair will blow over."

HEALTH OF VALLEY IS VERY GOOD NOW

Distinct Decline Shown In Number of Calls On Laboratory

Good health throughout the territory served by the Tennessee Valley Laboratory located here is reflected in the August report of Dr. A. J. Perolio, director of the laboratory.

Dr. Perolio stated in submitting his report, there had been a distinct decline in the number of calls he has had recently from the physicians of the Valley. Instead of having 1901 tests for August the number he had for the month of June, the director had only 1,444 tests for the eighth month.

In May the laboratory forces examined 1,550 specimens and in April, 1771.

Only five positive tests for typhoid fever were found, from the 38 blood specimens sent in. Strange to record, there were no positive malaria tests, although 146 efforts were made to locate malaria germs. Out of a total of 34 tests made for intestinal parasites only two showed their presence. Out of 310 Wassermann tests made, 99 showed positive. Sixty-six gonorrhea cases were found in 137 tests.

Out of 70 tests for tuberculosis, only 7 cases were found. Out of 132, diphtheria tests 33 were positive. The report of Dr. Perolio shows a number of milk butter and ice cream tests.

Amusement Men Are Visitors Here

Tony and Harry Sudekum and C. H. Dean, officials of the Crescent Amusement company, operators of the local theaters, and a chain of houses over the south, were visitors here last night, returning to their headquarters in Nashville on a late train.

The visitors were en route home from the Tri-Cities, where they recently purchased several additional theatres.

KLANSMEN GATHER IN TWIN CITIES FOR 'NATURALIZATION'

Ceremony Will Begin During Afternoon At Malone Park

PARADE TO START EARLY THIS EVE

Fireworks Display Will Close Program At 9:45 o'clock P. M.

With hundreds of visitors already in the cities indications were given that the first open air naturalization of the Knights of the Ku Klux Klan to be held this afternoon and the earlier part of the night would bring one of the largest crowds that has ever participated in a similar event in the entire section. Klansmen have arrived from all points in northern Alabama and were to be served barbecue at the play ground of the Malone Amusement park, it was said.

The Klansmen in full regalia were to begin assembling at the baseball park near two o'clock while numbers of interested spectators were gathering at the play ground to await the beginning of the program that has been arranged for both Klansmen and spectators.

At four o'clock the visitors were to hear an imperial representative talk upon the principles of the Klan and its meaning in the affairs of the country today.

At five o'clock all visitors were requested to leave the park and the Klansmen will be marshalled from that time until 6:30 when they will begin a march through the principal thoroughfares of both cities. The line of march was to include, Moulton, Ferry, Lee, First avenue, Bank, Second avenue, Gordon Drive east to the water tower where the naturalization ceremonies are to begin.

At 8:30 there was to be another address made to the public by an imperial lecturer followed immediately by the ceremonies which will begin near 9 o'clock. The ceremonies are to be closed with a fireworks display.

The Robert E. Lee drum corps, from Birmingham was expected to arrive here this afternoon on Louisville and Nashville train number two from the Magic City. They were to be met by the officer personnel of the Klan and a short trip through the business districts of the two cities was planned, the corps being conveyed in an automobile truck.

The ladies of the various churches were to serve lunches at the ball park. Announcement was made this afternoon that the naturalization ceremony itself, which is to occur at the water tower tonight, would be conducted by the grand titan and grand dragon of the state of Alabama.

POLICE RECOVER MONEY LOST BY AGED CONFEDERATE VET HERE

Two Negro Women Placed In Morgan County Jail In Connection With Case

Two negro women are held in the Morgan County jail today in connection with an unusual case of lost money, which, through the activity of police, was restored to its owner.

A. J. D. Witt, an aged Confederate veteran who resides about 15 miles east of Cullman, came here yesterday to obtain his pension warrant, which netted him \$102.82 cash, it was said.

Last night he and his wife were waiting at the Decatur station for a train, police said, when Mr. Witt remarked that he would like a cup of coffee, Annie D. Preuit and Martha

LEAGUE OF NATIONS ASKS RATIFICATION OF PACT BY WORLD

Assembly Concludes Work to End Disputes Of All Nations

EVERY STATE OF 57 SUBSCRIBE

Compulsory Clauses For Arbitration Also Are Urged

(Associated Press)

GENEVA, Oct. 2.—The fifth assembly of the League of Nations today solemnly concluded its work of peace by the unanimous adoption of a resolution, urging all governments to ratify the protocol of arbitration and security, providing for the pacific settlement of international disputes.

All of the 57 states represented in the assembly subscribed to the resolution, which was divided into two parts. The first recommended to the earnest attention of all members of the league acceptance of the protocol, which provides, in addition to clauses covering arbitration and security, for the preparation for an international conference on the reduction of armaments.

The second part asks that all of the countries accede at the earliest possible moment to the compulsory arbitration clause of the world court of justice.

Cars Will Stop On October 11

Under the present plans of the Alabama Traction Company, the street cars in Albany and Decatur will stop on October 11. Some confusion in regard to the date of suspension of service has arisen because of a typographical error in The Daily yesterday, which, at one point in the news story, placed the date at October 2. The date was correct, however, in the official notification, carried as a part of the news story, and in the advertisement of the company on another page.

Millinery Class Will Meet Here

The district millinery class for Colbert, Cullman, Madison, Limestone, Franklin and Jefferson counties will give a demonstration at the Chamber of Commerce here on October 13, 14 and 15. The purpose of the class will be to teach home millinery work and to show the results of a home demonstration agent.

ABOUT SEVENTY-FIVE GIVEN PLACE TODAY AS 'CAR BUILDERS'

Further Impetus For Better Business Furnished

TOTAL EMPLOYED NEARLY 1800 NOW

Freight And Passenger Traffic Declared To Be Increasing

Seventy-five additional shopmen are now employed at the local Louisville and Nashville shops, bringing the total number to close to 1,900.

It was stated by merchants doing business on Fourth avenue, South Albany, that most of the newly employed men, were assigned work in the car building and car repairing department.

The new addition will bring the number in the wood working departments of the shops beyond the number of men employed in the iron departments, where the boilers and engines are kept in repair.

Many more men work in the car departments during the day than in the engine and boiler repair departments, but no night work is done by the wood workers except at rare intervals.

But the iron workers' departments, the round house, the boiler shop, and parts of the machine shop, have regular day and night shifts.

The first of the day workers go on at seven in the morning and stop off between 3 and 4 o'clock in the afternoon, when the workers of night shift begin their work and continue until around 11 o'clock when the second night shift workers begin, and continue until 7 o'clock a. m.

An Increase Recently

Some weeks ago, before all departments of the shops went on a full six day schedule about forty were put to work at the shops and at that time the majority of the men employed were put to work in the car department.

During the busy season in the past numbers of new cars have been built at the local shops. The work being done in large part at the large "car shed" in the central part of the large shop enclosure. The "shed" now has an indestructible concrete floor and placed, several years ago, to take the place of earth and wooden floors. Also, most of the floors of the shops of the iron department have been made of concrete in late years. Until recent years since the establishment of the L. & N. shops here over a generation ago, wooden floors were used the machine shop and round house.

Grover Bergdoll May Be In the U. S.

(Associated Press)

KARLSRAUT, Baden, Germany, Oct. 2.—Government officials here are inclined to believe that Grover Bergdoll, wanted in the United States for draft dodging has returned to America.

The officials are basing their conclusion on his prolonged absence from Eberbach, where he has not been seen since April 6.

Wheat Prices Up To \$1.50 Bushel

(Associated Press)

CHICAGO, Oct. 2.—Wheat in Chicago rose today to \$1.50 a bushel for May delivery. This represented an overnight advance of more than three cents a bushel with all deliveries of wheat and rye here touching a new high price record for the season.

Urgency of foreign demand for breadstuffs was the apparent cause.

SPORTS

CENTRAL AND DECATUR CANCEL;
JASPER APPEARS FOR FRIDAY

The heralded gridiron struggle between Central and Decatur High school elevens has been called off for the time being and the Vikings of Walker County High, Jasper, Ala., state champions of three years ago have been scheduled for the opening tussel with Central High at Cooper-Wells field at 3:30 o'clock.

Coach Webb will not scrimmage again this week fearing injuries to his opening lineup which will possibly include Papenburg and Handy at ends, Spencer and Mitchell at tackles, Cook and Zanvit guards, Peterson, center. The backfield will possibly be composed of Singleton at quarterback; Giers and Tuck at halves and Johnson, a veteran of last year's team, will be at fullback. The team is light but exceedingly fast and shifty and they will possibly give the heavier Walker county people plenty of opposition.

It is expected that a good crowd will be present as there are only two home games scheduled thus far and this marks the first appearance of both the Central and Viking teams on the local field this year.

Officials have not yet been announced for the game but it is urgently requested by authorities of the school that the spectators remain in the spectators' place and above all else refrain from tearing upon the field. The presence of spectators on the field will necessarily mean the infliction of a penalty upon the home folks.

Saturday Battles

Georgia Tech—V. M. I.
Vandy—Birmingham-Southern
Georgia—South Carolina.
Auburn—Clemson.
Alabama—Furman.
Centre—Valpariso.
Oglethorpe—Fort Benning.
Florida—Rollins.
Washington-Lee—Maryland.
Seawane—Carson-Newman.
V. P. I.—Hampton-Sidney.
L. S. U.—Southwestern.
Miss. Aggies—Missleaps.
Kentucky—Louisville.

Saturday will mark the first appearance of Coach Ducky's college team at Rollins College. The Rollins outfit goes up against a bitter dose in the Florida Gators and it is hoped locally that the Ducky's crowd will show the conquerors of Alabama there is another good club in the everglades. Coach Ducky was very successful in high school circles but his mettle has not been tried in college environment. Saturday will undoubtedly mean much to the diminutive mentor.

Shopmen Begin Grid Practice

The Louisville and Nashville and Y. M. C. A. combination got under way in the first afternoon practice at the Cooper-Wells field on Wednesday afternoon with a squad of twenty-five reporting for the first days workout.

Coach Webb of Central, Howard Lively and S. E. Arvidson took charge of the men and the afternoon was used in hitting the ball, passing and punting. Last night the first signal practice was held at the Y. M. C. A.

Indications are that a good team will be turned out to represent the cities in independent football this year. It has been three or four years since such an organization has been perfected and at that time proved to be very successful.

Schedule bookings are now under way and the best teams in the section will be met while the local high schools are on hostile fields taking on very worthy opponents.

New California Lake Discovered

FRESNO—Although Sequoia National park has been a public playground for more than 30 years, new discoveries still are made. A forest ranger recently returned from a three day trip in the Mount Silliman region and reported a lake larger than any hitherto known in the park. The find has been tentatively named Crater Lake.

Cotton Crop Is No Better This Year

The cotton crop in Lawrence County promises nothing better this year than last in the way of quality or yield to the acre, according to Daniel Gilchrist of Courtland, well known farmer, merchant and cotton dealer, and D. W. Irwin, of Hillsboro also a leading merchant and cotton dealer.

Mr. Irwin stated that if there was any difference, cotton crops in his section are not as large this year, as last year. He said the spinning reports showed no increase over last year's reports, at this time.

In speaking of cotton prospects at Courtland, Mr. Gilchrist said: "The growing season is over and given good weather in which to pick out the cotton in our section of Lawrence County, we will gin about as many bales as last year but no more. While the boll weevil did not damage the crop greatly, the dry weather did, and much of the cotton has a small stalk with few bolls, and many of the bolls are small."

Both men stated that while the recent frost was general throughout Lawrence County, that it did little damage.

Kiwanis Club Has Its Weekly Dinner

The regular weekly meeting of the Morgan Kiwanis club was held at the Y. M. C. A. at noon today with only routine business to be transacted.

On reports of committees on the charity fund for the provision of school children who have neither books, funds or clothing for the present school term it was announced that nearly three hundred dollars had been raised by the committees that had reported. One committee was still to report. Each businessman was asked to donate as much as one dollar to the worthy cause and reports showed that results greatly exceeded the expectations.

Some plans are to be formulated in the near future for the annual charity benefit affair that is to be held for the Kiwanis Christmas tree that has been given to the poor annually since the formation of the club. The plans submitted by the various committees were to be submitted to the directors.

The club was adjourned after several songs and a delightful luncheon served by the ladies of the Westminster Presbyterian church.

GOVERNOR DIES

(Associated Press)
CHEYENNE, Wyoming, Oct. 2—Governor William D. Ross died in Memorial hospital here Thursday morning at 3:15 o'clock.

Memphis Evens Up Dixie Title Series

(Associated Press)

MEMPHIS, Tenn., Oct. 2—The Memphis Chickasaws, fighting with their backs to the wall in their own wigwam squared accounts with the Fort Worth Panthers, Texas league champions in the post-season series for the baseball championship of the south, by defeating the Texans, 4 to 3, yesterday and making the count for the series three all.

As a result the deciding game will be played on the Memphis grounds today.

Wednesday's game, the seventh of the series, the first game ending in a tie, was the first played on the Cricks' grounds after their return from Texas with the count three to two against them. Thus far each team has won all games played to a decision on home grounds.

Memphis won by virtue of a long drive by Barber, Chick outfielder to right for three bases which sent Anderson, who had walked, across the plate in the sixth, but the run-making as a whole on both sides was due to a mixture of timely hitting errors and wildness, with Fort Worth having the added misfortune of losing the services for the day, of Ralph Head, mighty right-hander, whose pitching hand was injured in attempting to stop a line drive in the fourth. Walker, young left-hander, relieved him at the start of the fifth with the score tied.

Fort Worth took an early lead in the second when, with out out, Merz, pitching for Memphis, walked Edgington, hit Travener on the arm both advancing when Merz made a wild pitch, and on the next throw Bishoff smashed out a single, scoring both runners.

Auto Loses Wheel, Driver Is Killed

(Associated Press)

BIRMINGHAM, Ala., Oct. 2—Throwing a wheel an automobile driven by E. M. Gallemore, aged 30, of Memphis turned over on a highway near Hamilton, Ala., this morning killing the man instantly.

A. R. Womack of Memphis, was injured slightly. Mr. Gallemore was branch manager of the Timken Roller Bearing company at Memphis, having recently moved his office there from Birmingham. He was en route from Memphis to Birmingham to wind up his business here. Mr. Womack is a bookkeeper in his Memphis office.

Mr. Gallemore's body will be sent to Macon, Ga., his former home.

Woman Discovered Hanging From Tree

(Associated Press)

HOT SPRINGS, Ark., Oct. 2—Searching parties, organized when Mrs. Oscar Helmich disappeared from her home, near Cingo, in Saline County yesterday morning, late last night found Mrs. Helmich's body hanging from a tree, in a woods some distance from her home, according to a report received today from the sheriff's office at Benton.

Only meager information was available but it was stated that bloodhounds had followed a trail from the woman's home to the woods where the body was found.

Facts About Child-birth

It has been proven conclusively that much of the suffering, pain and dread experienced during pregnancy as well as at child-birth is entirely unnecessary. An eminent physician, Dr. J. H. Holmes, expert in this science, first produced the great remedy "Mother's Friend," which aids the muscles and tissues to expand more easily during the constant readjustment, month after month, right up to the climax of child-birth.

"Mother's Friend" is applied externally. Three generations of expectant mothers have used it. "Pains disappeared in two days after using 'Mother's Friend,'" writes a user. "I owe my life to 'Mother's Friend,'" declared another. Use "Mother's Friend" as our mothers and grandmothers did, start today and experience the wonderful comfort it will give you.

Go To Church Plan Is Given A Boost

(Continued from page one)

the birth of the child until his third year: Beginners 4 to 5; primary, 6, 7, 8; intermediates, 9, 10, 11; juniors, 12, 13, 14; seniors, 15, 16, 17; young people, 18 to 24; adults, 24 until death. The home department is another of the Sunday School's fields of work.

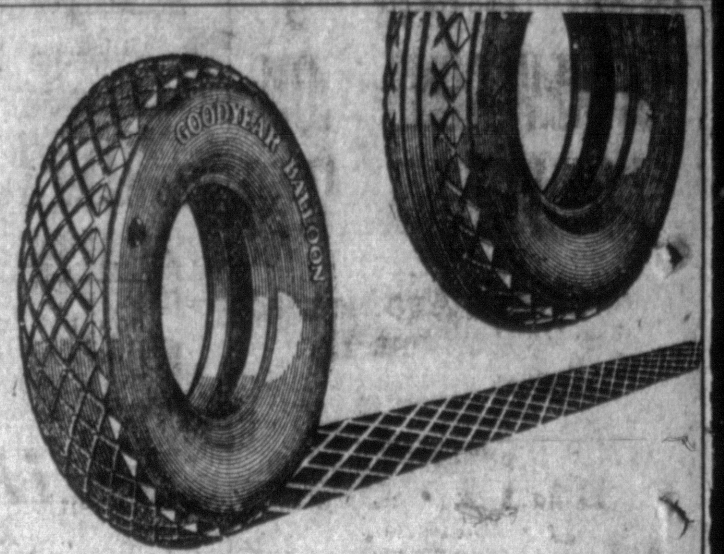

Dr. Henry said that children from 6 to 10 could and would learn long poems and long passages from the Bible, and added, "it is a crime, a sin—that teachers fail to teach children beautiful poems and Bible passages during these periods."

The teacher showed that from 16 to 20, was "the idealistic" period of

youth, and that boys and girls were undertake great things, and "great thoughts" during that period, was announced that the school would close Friday night.

Dr. Walter P. McGlawn, president of the Decatur district, and W. M. McDonald, who is the director of the school, both expressed themselves as pleased and content with the present accomplishments of the school. Not only Dr. Slaton, Mr. Baker and Miss Parham, have large and enthusiastic classes.

GOODYEAR

Mrs. Housewife! Do You Favor Food Law Enforcement?

You appreciate the vital importance of pure and fresh drugs—drugs that are prepared and packed under fixed government regulations.

How about foods? Aren't they just as important? Take baking powder, for instance—it is useful only when it produces its maximum of leavening strength in the breadstuffs—baking that are easily digested, wholesome strength means flat and soggy bakings which are surely indigestible.

The pure food laws of our country have standardized baking powder—they require that it contain 12% leavening gas at the time of sale to the consumer. Why is it that these laws have not been applied to baking powder mixed with flour, and sold in sacks as self rising flour?

Thousands of barrels of self rising flour are annually sold in our southern states without any regulation by pure food measures, except in Texas.

Any grade of flour and any quality or strength of baking powder can be used in making self rising flour and sold to the unthinking public without official criticism.

Numerous baking and laboratory experiments have been conducted by state chemists and other investigators. They found a surprising amount of this mixed flour to be so deteriorated as to be productive only of heavy, soggy bakings.

Do you want to eat foods made from self rising flours that do not contain the necessary leavening strength—foods that are hard to digest and a detriment to health? Do you want the law to protect you in this instance as interested in public health to decide?

Remember Calumet Baking Powder meets every requirement of the law—that it retains its great leavening strength to the last spoonful.

Packed in tin—keeps the strength in.

A DAILY PRAYER.—May a new thoughtfulness and a more kindly spirit rule during the coming days.

Bright dreams are those that are rudely ended.

A big man is one who holds a big position, but is bigger than the job.

Tailors may make a man but they also can break them.

Those who have duties, and also have an outlook beyond them seldom stumble.

Now, if Morgan's county seat was pulling off a county fair, autumn would be complete.

Inertia and apathy are two evil things back of most disloyalty and discord.

The sellers of overshoes and umbrellas will soon realize the old truth: "Every thing comes to those who can wait."

Prohibitionists in New York state are against both Smith and Roosevelt. It might be that the friends of Al and Teddy did it on purpose so as to eliminate the drink issue.

The Prince of Wales has about as much chance of being found until the baseball season ends, as the proverbial needle in the haystack. He has just as well be at home, so far as getting any attention goes.

The Albany-Decatur Daily, with the complete sympathy of the Anniston Star, is groaning over the Chinese names appearing in the dispatches coming from the scenes of conflict over there, and talking of offering a medal for anyone who can spell and pronounce them. It's even worse than that here, we have to make a diagram before writing a headline for them to keep from having one of those war lords fighting himself.—Florence Times.

PROGRESSIVE

From my point of view he only deserves to be called a progressive who cannot see a wrong persist without an effort to redress it, or a right denied without an effort to protect it; who feels a deep concern for the economic welfare of the United States, but realizes that the making of better men and women is a matter greater still; who thinks of every government policy first of all in its bearing upon human rights rather than upon material things; who believes profoundly in human equality and detests privilege in whatever form or in whatever disguise, and who finds the true test of success in the welfare of the many and not the prosperity and comfort of the few. The civic unit of America is not the dollar, but the individual man. All that goes to make better and happier and freer men and women is progress; all else is reaction.—John W. Davis.

RUMBLE OF AGRICULTURISTS' WAGONS HEARD OVER ENTIRE COUNTY

With the first tinges of fall weather and the wintry days ahead a familiar sight that is pleasing to the eye again greets the glance of the passersby in both the cities of Albany and Decatur. The streets are literally blocked with the wagons of the agriculturists loaded to capacity with the staple of the southland, the reward for a season's intensive labor.

Not only is this true of Albany and Decatur but of all the little cities to the north and south, east and west of the Morgan county capital. Athens is enjoying a similar prosperity as the farmers of Limestone gather to market the nationally known product of the south. Hartselle, to the south, is in the midst of one of the finest trades seasons that has been known for years. Courtland, about twenty miles west on the Decatur-Tusculum highway is likewise in one of the busiest times of the year for the little city has always been one of the most prominent in the territory during the harvest months. Somerville in the eastern section of the county, while not as prominent in the affairs of the county on account of the population figures, is still in the forefront as a buying and selling center and counted among the county's most valuable assets.

The pendulum of Prosperity is again swinging our way. We are again to back in the sunshine of plenty. The year is at the harvest and Morgan county is among the leaders in the production agriculturally over the state. Our section, one of the very finest in the entire state, always stands at the very top in agricultural production and although our industrial output is gigantic and on the increase each week the agricultural values far exceed the industrial figures. The Tuesday night frost that left the house-

tops with a silvery covering and similar to the often pictured Christmas scenes has not yet been heard of as a damage to the crop output. It is a certainty that in case any considerable damage was done that the prices of the marketed products of this season will soar in value. The early frost will be of great value to some while probably hurtful to others.

The general outlook in Albany-Decatur is more favorable than it has been for many seasons past. The spring business was not as heavy as first thought. It remains for the fall and winter business to bring that mark up and from the numbers visiting the cities since the road problem has been so extensively worked upon and with the local industries working full blast it begins to look as if the high mark will be reached in the history of local business.

COOLIDGE UNABLE TO WIN NOW, IS OPINION OF CORDELL HULL

If Calvin Coolidge was given the electoral votes today of all the safely Republican states and those of the doubtful states, he would have a total short of enough to elect him. This is the encouraging report brought to the south by Cordell Hull, former chairman of the Democratic national committee. Mr. Hull accompanied Mr. Davis on his recent tour of the west and now is confident that the West Virginian will be elected in November.

Mr. Hull is quoted by The Nashville Tennessean as saying:

"I am glad to be able to report after accompanying John W. Davis on his recent speaking trips, that the party outlook is highly encouraging. Mr. Davis is absolutely confident of election. One thing is certain, the Coolidge movement is on the decline, and today if Mr. Coolidge were allowed the votes of all the safe Republican states plus the doubtful states what Coolidge has an equal chance to carry, the total number of electoral votes he would receive would fall considerably short of the necessary majority of 266. Let any person count and satisfy himself."

"As the election approaches it becomes more plainly evident that a large majority of the American voters condemn the Republican record at Washington since March 4, 1921, as made by the duly authorized Republican agents in charge of the government. The farmer knows what has happened to him. The people generally know that the unconscionably high tariff of Fordney and McCumber is the chief factor in existing high prices of the things they buy except farm products."

SWIFT AND SURE PUNISHMENT STANDS AS THE GREATEST DETERRENT TO CRIME

According to statisticians who specialize on crime, a resident of the United States has seventeen times a greater chance of being murdered than a resident of England or Wales, and six times greater than the hazard to which a Canadian is exposed. The swiftness, and inevitability of the English law are held the prime causes for a much lower homicide record than this country makes. In Canada in 1919 there were thirteen murders to the million population. In Great Britain there were nine to the million. In Chicago there were 110 to the million.

The swiftness and sureness of punishment in England is the cause of the low murder record. Some time ago a London newspaper, commenting upon British justice, alluded to a period when there were twelve murders in the first degree—and there followed, very soon, twelve hangings. Not one of the murderers escaped the penalty.

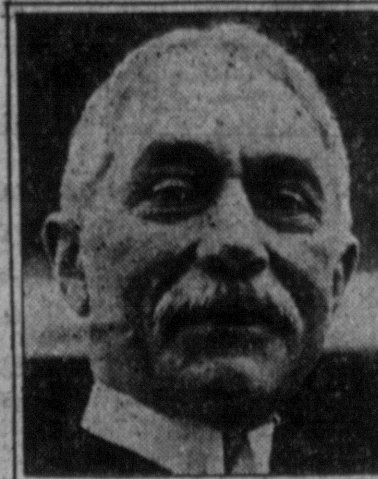

R. T. Bye, one of the recognized authorities on crime statistics, is quoted to effect that in 1917, out of 7,000 homicides in the United States, only 85 were executed as guilty of murder. The Metropolitan Life Insurance company had specialists conduct a study of 146 homicides. It was interested in the subject because it paid \$724,000 on homicide death claims. Out of 146 homicides, which included 114 manslaughter or murder cases there was only one execution. According to the figures of Mr. Bye, only one man in 80 who commits a murder ever suffers death for it, and Bye holds that the inevitability of punishment, as exemplified by the British custom, is one of the greatest deterrents. In this country pressure is brought to bear and pardons and commutations are the rule rather than the exception. In Great Britain, if a murderer is sentenced to be hanged, the chances are that he will be, and criminals know that; men of violent temper know that. It makes many a man pause at the thought of committing a crime.

The abolition of capital punishment, for which many well-meaning and sincere persons are working, has been tried in Europe as well as in some states of the Union. There are eight states now where there is no capital punishment. France abolished the death penalty in 1906, but murder is said to have increased 68 per cent. This figure is that of the Massachusetts Civic Alliance. Three years of a saturnalia of crime caused France to restore the guillotine in 1909, and the figures immediately took swift recession to the average they were before the experiment. In 1874 Switzerland abolished capital punishment, but in 1879 the law was changed so the various cantons could control the matter and ten cantons restored the death penalty. Holland, Italy and Norway are without the death penalty. Capital punishment was abolished in eight states of Germany from 1849 to 1869, but the imperial criminal decree of 1872 restored it.

It would be interesting indeed if the homicide record of Alabama for ten years could be studied and analyzed. Deaths resulting from violence have been all too common, and it is general knowledge that very few of those convicted of murder ever pay the the penalty on the gallows. Knowing, then, that our law and criminal procedure apparently were designed to give the accused every benefit of the doubt, and that juries are notoriously reluctant to impose the highest penalty, those who are criminally minded do not greatly fear the consequences. They feel that they have a vastly better chance to escape serious punishment than the state has to convict them. And in that state of mind lies the secret of our appalling record of crime—not only in Alabama but in other states.

Certainly the present method of dealing with homicides has not proven a serious deterrent.—Birmingham News.

IMPORTANT FIGURES IN NEWS OF DAY

Above: THOMAS W. LAMONT & EMMA GOLDMAN
Below: CAPT. E. A. YARROW & E. A. BANCROFT

The \$100,000,000 credit given France by the J. P. Morgan bank when the franc was at its low ebb has been extended for another six months through the offices of Thomas W. Lamont, a partner in the Morgan bank. The Soviet system of government, despite her idealism, is not so good, Emma Goldman, once well known as an American Socialist, says, and she probably will find a haven in England. She was sent to Russia from the United States under a deportation order, but did not like it. An international park on the crest of Mt. Ararat, where Noah's ark landed after the flood, is the proposal of Captain E. A. Yarrow of the Near East Relief. The new ambassador to Japan is E. A. Bancroft.

FIRST 'EGG LAYING' CONTEST SCHEDULED

Auburn Prepares For Unique Event Of November 1

AUBURN, Ala., Oct. 1.—Special—One month before the opening of the first national egg laying contest here, which will begin November 1, the building, fences and other equipment are practically complete. Forty-eight poultry houses and one big headquarters' house have been constructed since early summer, and fences around them, providing running space for each pen of hens, are now being constructed. They will be finished within a few days. The houses were built of concrete.

While preparations have been in progress poultry producers throughout Alabama, and also in nine other states, have entered hens in the contest, according to John E. Ivey, head of the poultry department here. Forty-six entries have been made by Alabama poultrymen and 23 by poultrymen in other states as far away as Washington. Other states represented in outside entries are Virginia, Mississippi, Florida, Michigan, North Carolina, Georgia, Ohio, Kentucky and Washington.

An entry consists of 10 purebred pullets of the same variety. Each of the 48 houses is divided into two sections and each section is large enough for one pen. Consequently, space is provided for 96 pens of 10 hens each, or a total of 960 hens. The individual houses are 12x14 feet and individual pens are 6x14 or one-half of each house. The ward for each pen is 20x50 feet.

The object of this contest as explained by Mr. Ivey are to stimulate a greater interest in poultry production and to impress on the minds of the people the value of proper housing, feeding, breeding and management of poultry. It will be the first egg laying contest south of the Ohio river and east of Texas and will be conducted under modern conditions in every respect.

All hens will be fed, housed, and managed alike. Every attention possible will be given to sanitation and disease prevention in order that the maximum production may be secured from each individual in the contest. All birds will be trap-nested. At the end of each calendar month a detailed report showing the total average egg production of each entry to date and for that month will be mailed to each owner of the entry and released for the press. The average egg production of each entry at any time will determine the relative standing of that entry in the contest.

With approximately 2-3 of enough entries already received to fill all pens Mr. Ivey is certain that the contest will begin on November 1 with the maximum number of 960 hens. At least one entry is expected from each county in Alabama and several counties have already entered more than one. Nine have come from Jefferson County alone, and Mobile is second with six. The contest will run one year or until October 30, 1925, at which time all hens will be returned to the

Exact Location Of Dam One Not Set

Although popular belief has been to the effect that the so-called "navigation dam" No. 1, to be built below Wilson Dam at Muscle Shoals, would be near that structure, no official decision has ever been reached as to that effect, stated R. M. Jones, executive secretary of the Florence Chamber of Commerce, who was here today.

Mr. Jones said that a much larger pool would be made and more wharfage afforded, if the navigation dam was removed some distance down the river, from Wilson Dam.

He said that now a navigation dam to be located several hundred feet below the wagon bridge between Sheffield and Florence was being planned which would be about 65 feet high.

Mr. Jones explained that so high was Wilson Dam, that unless another dam was built below it, there would

be no way of getting ships through the locks at Wilson Dam into the inland sea to be created by that structure.

Mr. Jones added that the foot dam be built, the waters embanked by it would be used to develop electric power.

Mr. Jones said people in his section were doing all in their power for the success of the Ford bid.

Increase In Japan.

TOKYO.—Japanese labor, growing in class consciousness, is becoming increasingly unruly. Official statistics compiled by the home department show that strikes were more than twice as numerous in the first half of 1924 as in the first half of 1921. There were 435 strikes involving 55,000 workers in the first six months of this year, as compared with 182 strikes involving 25,000 workers during the first half of 1921.

Hands At The Telephone

WHenever you reach for your telephone, thousands of other hands are making the very same motion.

More than 700,000 times each working day in Alabama, someone's hand reaches for the telephone to send a message.

If you could see these calls start—if you could follow them to their destinations—if you could see the action they create and the results they produce—you would have a picture of Alabama's activities—social, commercial, industrial.

It would be a picture of a great State in swift and rhythmic action, with the telephone making possible the efficient production, transportation, distribution and sale of practically every article you use.

You would see the weaving of a vast fabric of communication affecting the comfort, the welfare, the happiness and the business or social success of multitudes of people.

Hands at the telephone! At 68,000 Bell telephones in the State every day! Think what they mean to Alabama! And to YOU!

KINDERGARTEN OPENED WITH FORMAL TEA

An informal tea marked the opening of the Kindergarten that has been established by the Mothers' Club of Albany-Decatur on Wednesday afternoon at the Y. M. C. A. Mrs. H. R. Davis met the large number of members of the club and their friends at the door of the Y. M. C. A. and directed them to the Kindergarten room and there Miss Frances Himes, instructress, and Mrs. Allene King, chairman of the Kindergarten committee of the Mothers' Club, received while Mrs. W. P. Baugh presided at the punch bowl. The room, a large one in the west wing of the building, was flooded with sunshine which added greatly to the beauty of the profusion of goldenrod that was tastefully arranged in floor and wall baskets.

A splendid program was given, each number of which was unusually good, in the following order:

Vocal solo, Jane Irwin.

Paper, "Childish Creations in Thought World and Their Possibilities When Properly Directed," by Mrs. W. M. Robinson.

Group of songs, Tommy and Julia Dent Woodard.

Piano solo, Eva Love Wyatt.

Paper, "The Tragedy of the Misunderstood Child," Mrs. T. M. Jones, Jr.

Reading, Marion Bingham.

Reading, Madeline Summer.

Clarinet solo, Willard Proctor.

During the social hour those present enjoyed an inspection of the room and the modern kindergarten equipment that has been supplied including work tables, chairs and all sorts of diverting games and appliances for work. Mrs. Allene King, who has been so untiring in her efforts to launch the enterprise, was praised very highly for her work as the venture now seems assured of success.

Those enrolled in the kindergarten are: Frank-Ragan King, Betsy Townsend, Mary Preuit, Billy O'Connell, Henry Riley Summer, Nancy Worth Jones, Martha Frances Pettet, Miriam Stewart Hunter, Jane Keyes, Virginia Dinsmore, Mary Ruth Sullivan, Marie Dudley, Louis Mann, Charles Harris Eyster, Anne Francis Harris, Joe Burleson, Imogene Burleson, Geraldine Camp, Argie Carrel Boggess.

BEREAN CLUB

Mrs. W. B. Shackelford opened her spacious home on Ferry street to the members of the Berean club on Wednesday afternoon. The lower floor was unusually lovely, pretty fall flowers being arranged in the rooms used for entertaining.

The president, Mrs. W. H. Ritter, called the meeting to order and after a few words of welcome, the roll was called by Mrs. B. E. Preuit, the secretary, and it was responded to with favorite Scripture quotations.

Delegates to the First District meeting of the Federated Clubs, that will be held in Athens on October 14 and 15, were elected as follows: Mrs. W. H. Ritter and Mrs. B. E. Preuit with Mrs. Elwood Hewlett and Mrs. Tidwell as alternates.

A most delightful program was rendered by talented young people of the Twin Cities and they even seemed to surpass themselves in the gracious manner in which they took part. The opening number was a beautiful piano solo by Mrs. H. O. Troup after which Mrs. Troup accompanied Mrs. Kabrich who rendered a vocal solo in her inimitable manner. Mrs. Arwin Draper and Miss Gladys Bernardi were heard in several very entertaining readings which were followed by a very pretty vocal selection by Miss Longene Clemm, accompanied by Miss Lucille Bailey.

At the close of the program an ice course was served to the members and a number of visitors, the latter including Miss Nannie Baker, of Mobile, and Miss Parham, of Nashville, Tenn., members of the faculties of the Standard Training School that is being held for the Sunday School Workers in the Central Methodist church.

The next meeting of the club will be held on Thursday, October 16th, at the home of Mrs. Claude Trimble with Mrs. Z. Trimble as joint hostess.

Miss Kate Driscoll formerly of Jacksonville, Ala., arrived Wednesday to be here with her brother, W. H. Driskill on East Lafayette street.

SOCIAL AT MRS. OLIVE'S HOME

Mrs. E. Floyd Olive entertained all of the Circles of the W. M. U. of the Southside Baptist church on Wednesday evening at her home which was attractively decorated with fall flowers.

A guessing contest was indulged in at which Mrs. George Wells was the lucky contestant after which conversation was enjoyed. Another feature of the evening was the shower tokens of love that were presented to Mrs. Annie Barnes who will leave soon to be at home in Birmingham much to the regret of her large number of friends here. A reading by Mrs. Reynolds was enjoyed.

Ice cream, cake and chocolate bonbons were served late in the evening. Mrs. Olive proved a charming hostess and she was assisted in entertaining by Mrs. Reynolds who is her house guest.

Mr. and Mrs. C. W. Williams returned Wednesday from a few days visit to her brother, J. F. Herring at Flint.

Mrs. Manson Townsend and children of Hartselle left Wednesday for Florida where they will make their home.

Mrs. M. Reynolds, Iron City, Tenn., is visiting her sister, Mrs. E. Floyd Olive.

Mrs. Annie Barnes will leave at an early date to make her home in Birmingham.

Dr. and Mrs. J. Y. Hamill will leave Friday for a two weeks visit to New York city.

Mrs. W. A. George and daughter, Mary Elizabeth of Sheffield are expected guests of her parents, Mr. and Mrs. J. M. Minor.

PERSONALS

Little Bill Nelson is rapidly recovering from injuries sustained when he fell from an automobile on Tuesday evening.

R. B. Nunn of Trinity was here on business today.

Earnest Allen, of Nashville is here today on business. Mr. Allen stated he had been campaigning with Alabama's Junior Senator in the Volunteer state lately and that Mr. Heflin was making a valiant fight for John W. Davis. Mr. Davis will speak in Nashville October 20 stated Mr. Allen.

J. P. Erp went to Wilson Dam today where he has just accepted a position as blacksmith.

If you are one of those folks who love to cook good things at home, you'll find real fun in using self-rising flour. Of course, half the fun is in realizing how quickly and easy cooking with self-rising flour really is—and the other half is in knowing that your bakings are always light, delicious and healthful.

Ultimate Effects of New Sensation Not Yet Revealed

(Continued from page one)

sited to the bottom and if any players have been guilty of wrong-doing he will be properly punished."

Neither Manager McGraw, President Stoner or Secretary Tierney or Treasurer McQuade of the Giants could be located.

Dolan, to whom present implications point the most severe finger, has been a base-running coach for McGraw since 1921. He was formerly an infielder on the Phillies, Pirates, Reds Cardinals and Yankees and has been playing professional ball for the past 20 of his 37 years.

The newest blow to baseball has landed most heavily on the Pacific coast, where Jimmie O'Connell, \$75,000 beauty, was purchased by New York in 1921, but who did not report until the end of the 1922, occupied the relative position in public esteem that Babe Ruth now holds in the national field. He was lionized wherever he went.

Commissioner Landis' statement follows:

"Player O'Connell and Coach Dolan of the New York National league baseball club have today been placed on the ineligible list. This action was taken by the commissioner on evidence furnished by the confession of O'Connell and the testimony of Dolan. "It appeared that on Saturday, September 27, O'Connell offered player Sand of the Philadelphia Nationals \$500 to throw the ball game, which Sand refused and promptly reported to Manager Fletcher. This was followed by the commissioner's investigation in co-operation with the officials of the New York club which resulted in O'Connell's confession, which placed the responsibility of instigating the scheme on Dolan, whose testimony in his own behalf of such a character as to be unacceptable.

"O'Connell's confession sought to implicate players Frisch, Young and Kelly, of the New York club, but their testimony in the commissioner's opinion was a clear refutation of the charge, which, standing alone, was exceedingly unreasonable.

"The commissioner desires to express his heartiest commendation of the action of player Sand."

Dreyfuss, Ho.,
PITTSBURGH, Oct. 2—Calling off

This Will Fix Your ASTHMA

Dr. Platt's Rinex—a new internal treatment that gets at the root cause of asthma—guaranteed to give complete relief from all attacks in 24 hours, or money back. Ask any good druggist.

Rx. Take 2 Rinex Capsules and 1 Tablet 3 Times a day. *Do Not Miss*

"Gets-It" Makes Corns Vanish

Even Surgeons don't cut their own corns. They use "Gets-It" to rid their feet of corn or callous pests. Why should you risk infection or a slip of your razor when it is so easy to end manually. Two or three drops of "Gets-It" stops all corn pain—then the corn loosens so you can peel it right off with never a twinge of hurt. Try it today. E. Lawrence & Co., Chicago. Sold everywhere—money back guarantee.

How Appendicitis Very Often Starts

Chronic stomach or bowel trouble often causes an inflammation which spreads to the appendix, causing appendicitis. Ordinary bowel inflammation can often be relieved with simple glycerine, buckthorn, etc., as mixed in Adlerika. Most medicines act only on lower bowel but Adlerika acts on BOTH upper and lower bowel and removes all poisons. Helps any case gas on stomach in TEN minutes. Caddell Drug Co., 507 Second Avenue.—(Adv.)

MY HUSBAND'S LOVE

Adele Garrison's New Phase of

Revelations of a Wife

Copyright, 1924, by Newspaper Feature Service, Inc.

Why Dicky Tried to Side Step What He'd Started.

DESPITE my anger, and it was not against both my husband and his mother, I could not restrain a smile at Dicky's discomfiture when he entered Mother Graham's room, and saw Junior struggling in his grandmother's arms while he hurriedly baby-faced defiance at that stately old lady.

Dicky had indignantly drawn a pathetic picture of the child, sobbing bitterly because of my sending him away, being called into his grandmother's room and comforted in her arms. Instead, Dicky was faced with a disagreeable disciplinary problem, which, in true masculine fashion, he instantly dodged.

"That child needs a good spanking, Madge!" he snapped, and made for the door.

I did not attempt to detain him, for I was well content with the sudden destruction of the picture he had drawn. He knew as well as I that he had made himself ridiculous, and he also knew that I knew it, which was worse still.

Even his mother's voice raised in a sharp command, "Richard, come here," failed to recall him, and the door closed emphatically upon his hastily retreating figure.

Across my little face, my mother-in-law glared at me. But she did not speak immediately. Junior's naughty epithet of "you old bunch of soup greens," which I recognized with dismay as one of Kate's favorite obnoxious remarks against people whom she does not like, had evidently roused the temper which both her son and grandson "come by honestly." In the homely old phraseology:

"There was hot wrath as well as efficiency in the way Mother Graham twisted the struggling child over her knee, and administered the chastisement which Dicky had suggested."

"There," she snapped, setting the struggling, sobbing child upon his feet. "If ever in your life, Richard, you say a thing like that to me again, you'll get worse than this. Now go over there in that chair until I tell you to get up."

"I Demand—" I clinched my fingers into my palms to keep from snatching Junior from her during this performance. Only the knowledge that he richly deserved the chastisement for his temper and insolence, restrained me. For I realized that in my little lad's brain was gathering the storm which justice always brings to any human being possessing an spirit worth mentioning, and for the moment I was powerless to come to his aid.

Junior stood erect for a second, his head thrown back, fighting his soul and so forcing the light in his eyes that I feared he would fly at his grandmother in unreasoning rage. But instead he plunged toward me with a despairing little cry of:

"Ma-ma! She wouldn't let me mind you!"

He was upon me in an abandonment of grief, arms and legs wound tightly around my body. I knew old-fashioned discipline that I forced Junior to sit down as his grandmother had told him to do. But sheer love of justice forbade this, and clasping him closely, I moved toward the door, speaking to my mother-in-law apologetically as I did so.

"I will bring him back ready to obey you in a few minutes, mother."

THE VERSATILITY OF THE TEMPERAMENTAL

MARIE—Oh, I wish Father were here! When I bought this Spanish shawl he declared it pints of money to pour into a fad of the moment. And now look at what you two girls have done with yours just to be different—you've transformed yours, Ethel, into a circular wrap, and Oh, Wanda, what a wondrous swathed gown yours has become.

FAMOUS "FIRSTS"

Brief Stories of the Men and Women Who Led the Way

By MARK STUYVESANT

A Glimpse of the First Ruler of the Holy Roman Empire.

IN these days of Franco-German animosities it is hard to believe that Charlemagne, greatest of French kings, was a German, but it is true. The name "France" comes from a Germanic tribe called "Franks" of whom Charles the Great, better known as Charlemagne, was king.

The old Roman province of Gaul, had been overrun by German tribes after the break-up of the Roman Empire of the West. The most powerful of these tribes were the Franks, who settled in the center of modern France.

The Frankish king, Clovis, had converted to Christianity. But Christianity threatened by the pagans of the north and east and the Saracens of Spain. Strong support of the Pope, Charlemagne prevented the Greek Empire from making inroads to the west. When he was crowned emperor of the Romans in 800 A.D. he had to store most of the Roman Empire of the West to its original boundaries.

Charlemagne encouraged learning, aided the church and gave it a great impetus. Although the empire fell apart after his death in 814, Charlemagne had saved Christianity from danger of extinction. The Germanic Franks through the following centuries intermarried with the original Gauls, and the present French race is the result, a race which is still more than one-third Nordic in blood, and possesses a vitality which was demonstrated during the world war to be as great as that of its more Nordic enemy Germany.

HOME-MAKING HELPS

"Everything About the House Helps to Make the Home"

By WANDA BARTON

Filling the Boarding School Trunk.

FILLING the boarding school trunk for daughter means a considerable outlay of thought, energy and money. Everything chosen in the way of apparel must be suitable for the climate where the school is situated and in conformity with the rulings regarding clothes. After all requirements are filled, there is apt to be a list of extras that are likely to be wanted.

One wise mother packed all the extras in the bottom of the trunk covered with a linen cover marked "extras" so they need not be unpacked until need arises for their use. Among these are toilet requisites, laundry aids, undergarments, weights, and duplicates of things most likely to be wanted.

The emergency kit, including the water-kiss hot water bottle, is placed where it may be found quickly if needed. A secure lunch box, too, is packed.

As borrowing is taboo in the better schools, your girl must be protected against all contingencies that might lead to this expedient. A supply of stamped envelopes insures against the lack of a stamp when most needed.

While the clothing and small needs are of greatest importance a bit of real hominess to dress up the strange bedroom is a big help toward warding off home sickness, especially if it is the girl's first separation from her home circle. Many mothers prepare these things during vacation, when other sewing is not pressing, and we find many new ideas in the work being done on porches or hotel verandas.

The canvas shoe bag to tuck on the closet door is made with six box pleated pockets. It is bound with tape loops on one edge to hang it against the wall and tape ties spaced so that it may be turned up over the gowns to protect them from dust.

A couch cover made of crash stenciled or embroidered with wools, with a half dozen pillows to match will do a lot toward brightening a room. Then a table scarf to match with a pair of slacks, and a comfortable, attractive lamp makes an inviting place to read or study. Bureau or toilet table fittings are among the necessities and may be as elaborate as the girl wishes or as accustomed to being at home. A secure lunch tray will do nicely for brushes and combs, if the china used at home is considered too heavy or fragile to pack, and powder boxes and hairpin boxes may be had to match. A black satin cushion embroidered with gold thread, the ruffles at the edge lined with the favorite color silk or satin will be welcomed for the favorite chair.

A little toilet set with Kettle and chafing dish insures comfort for cold days or nights, or on days when passing illness makes one long for home and mother. These things may be expensive but are a great comfort. A pair of good black socks and a pillow of the kind the girl is accustomed to are frequently invaluable comforts, for sleep means a lot when one is working to capacity, and these comforts are not always to be found away from home.

Even though the girl may not be fond of sewing, she must have the

complete equipment in case of need. Leather collar boxes make nice sewing kits and may be readily packed in the hat box. If the girl is an enthusiastic needle woman she will want a flat awl, gross covered work basket as well as the work box.

Two pairs of gray cretonne curtains, with the hems basted so that they may be shortened if necessary to fit the windows, will help still more to make the room attractive and homelike. A welcome addition to the "extras" will be a table cover of black oilcloth, stenciled in bright colors, to be used for the "preads."

When the girl is in the room, the "preads" will be wiped off, and save the laundry bill. A package of crepe paper napkins will be appreciated, and with some of the paper spoons and forks, will complete the outfit.

The more money we can make the stranger room the more contented the girl will be between vacations and the arrival of goody boxes from home.

Madame numbers among her clients some of the smartest debutantes of the season.

"I do love to make things for these attractive young girls!" she exclaimed to-day after looking over the list carefully.

"I should think you would," I returned.

Madame smiled as she said:

"I do take just as much interest in my older clients because they require even more careful attention than the young ones, but I adore so to design things for young, slim figures!"

"Who was the adorable little brunette in here today?" I asked Madame.

"You mean the one with bobbed hair and gray eyes?" Madame queried.

I knew we referred to the same one, for I had noticed especially what lovely gray eyes this girl had.

"She was Miss Blake," Madame replied.

"What are you doing for her?" I asked, at interest.

"At present I'm planning a simple afternoon frock," Madame answered.

I asked more questions about it and Madame offered to show me the sketch she had just completed.

"Don't you think it looks like her?" she asked.

I assured her that the profile and lob were exactly like Miss Blake's.

"It's seldom I have time to amuse myself by drawing people," Madame answered. "But Miss Blake is such a temptation."

"Stunning gown!" I remarked.

"I like it," Madame answered. "I wanted her to have something unusual."

"What is the material?" I asked.

"It's crepe-back satin in a lovely soft green," Madame replied.

"I used the shiny side on the outside," she continued. "Thought it would look well on the girl's slim young figure."

"And what is the dark stripe?" I asked.

"That's simply a strip of darker green satin," Madame answered.

"It does make a most effective trimming," I commented.

YOUR HEALTH

How to Avoid or Banish the Discomforts of a Corn

By ROYAL S. COPELAND, M. D.,

United States Senator from New York,

Former Commissioner of Health, New York City.

AN old gentleman told me the other day he had suffered from one corn for nearly seventy years. He never had another, but had had trouble enough from this one "to last a lifetime," he said.

When I asked how he started this disagreeable ailment he made the reply I expected—"By wearing tight boots."

Nature rebels against continual irritation, no matter how it may be applied. For instance, the steady scraping of the edge of the tongue over a broken tooth, produces an ulcer that may degenerate into cancer.

The awkward use of a stiff halbrush may rub the skin off the top of the ear. If kept up long enough there will develop a sore that is hard to heal.

Probably the most common example of this sort of trouble is the callous or corn, which comes on the top of the toe from the long-continued irritation of tight shoes. The first sign of discomfort is but the beginning of years of annoyance.

Not all corns come from tight shoes. It is just as bad to have the foot covering too loose. Then the shoe rubs the part and the corn develops.

If the shoe is too tight, it cuts off the circulation and prepares the way for tissue change, unfavorable to comfort.

Go into a shoe store and look over the stock. You will find under one number the most surprising assortment of shapes. There are wide, narrow, pointed, square-toed, straight, curved, flat-heeled, high-heeled, low-vamp, high vamp and seemingly countless other variations.

If you had a chance to compare scores of feet, you would find the same number of differences in form and structure.

Since there are varying shapes in feet and in shoes it should be possible to find a fit which would guarantee comfort as well as foot health.

The trouble is, however, the wide foot is crowded into narrow shoes and the long foot into a short shoe. Pointed shoes are worn by people with broad toes and broad shoes permit the wobbling about of narrow feet.

When you stop to think about it, it amazes you that so little care is exercised in purchasing shoes. If your feet are not put off buying new shoes till the old shoes are stretched out and are soft as a pair of old carpet slippers. Then new shoes, snug and inelastic, are forced on the feet which have conformed to the discarded shoes.

No one can have mental comfort or physical efficiency unless the shoes are properly-fitted. Next time you have occasion to buy shoes, use more care than in the past. It will pay in every way.

The foundation of practically every "corn cure" is salicylic acid. It is dissolved in collodion, one part to eight or ten of the latter. When painted on the callus it softens the hard tissues so they may be soaked and scraped off.

Sometimes applications of adhesive plaster will protect the sore spot and at the same time assist in softening the corn. There are special plasters, cleverly shaped to conform to the toe. These are helpful.

By a little care you can get rid of your pet corn. Do it now and have better health as a result.

Funeral Today For John Hamil Rickles

Funeral services for John Hamil Rickles were announced to be held at 4:30 o'clock today from the residence of Dr. W. A. Rickles, a brother of the deceased.

Mr. Rickles died at the home of Dr. Rickles Wednesday afternoon at 4 o'clock following an illness of several months.

The home of the deceased had been at Blountsville until he came to the Twin Cities for treatment.

The deceased is survived by one sister, Mrs. Alfred Barton, of Jasper, and two brothers, Dr. W. A. Rickles, of Albany, and J. A. Rickles, of Eagle

Jerry Rickles, of Eagle Pass, Texas, Dr. Hobart Rickles, of Marshall, Texas, and John South, of Blountsville. The funeral services are to be in charge of Dr. James D. Hunter, pastor of the Central Methodist church, and Dr. L. F. Goodwin, pastor of the Westminster Presbyterian church. The deceased was regarded highly by all who knew him as a Christian gentleman. The pallbearers announced were: Active, Dr. J. L. Gunter, Seneca Burr, H. O. Troup, Dr. L. A. Neill, and J. W. Bogges; and Alternates, Dr. R. M. McGlathery, J. L. Proctor, J. W. Minor and Dr. F. L. Carwell. The interment will be at New Lebanon, near Blountsville.

FAIR IS SUCCESS

(Limestone Democrat)
Limestone county's sixteenth annual fair came to a successful close on Friday night of last week with a beautiful display of fireworks, each night having been featured with this attraction. The fair of 1924 was one of the most successful ones in the history of the association and was well attended. The gate receipts for the three days totalled \$4,162.55, being a little over \$1,400 short of last year when a number of prizes were given away.

The receipts by days follows:
Wednesday—\$337.
Thursday—\$2,410.
Friday—\$1,415.55.
Friday's attendance both night and day, doubtless was cut down by threatening weather, but the thousands who turned out Thursday and Friday formed happy crowds and thoroughly enjoyed the races, the farm, poultry and cattle exhibits and the free attractions.

SYNOPSIS

Sir Oliver Tressilian, renowned for his exploits on the Spanish Main, is betrothed to Rosamund Godolphin, but the marriage is opposed by both Rosamund's brother, Peter, and her guardian, Sir John Killigrew. By repeated insults Peter finally provokes Oliver to threaten murder, and when Oliver's young half-brother, Lionel, kills Peter in an unwitnessed quarrel, suspicion falls on Oliver. Even Rosamund believes him guilty, and asks him to explain the trail of blood found leading from the body to his doorway. Desiring to protect Lionel, Oliver can do nothing but protest his innocence. But he goes to the justices and asks them to draw up a document attesting to the fact that he bears on his body no mark of recent wound; that therefore the trail of blood, obviously that of the wounded murderer, was not his. This document he takes away to hold in readiness until needed.

A few weeks later Lionel learns from Jasper Leigh, a pirate sea captain whose ship is lying in the harbor, that the queen has been petitioned to command the justices to bring Oliver to trial. Half-crazed with fear that should Oliver clear himself his own implication will follow, Lionel formulates a scheme to get his brother out of the way. He hires Leigh to abduct Oliver and sell him as a galley-slave to the Barbary rovers.

CHAPTER VII (Continued)

The clock over the stables chimed the hour of eight. Master Lionel shrank back in his chair at the sound. The thing would be doing even now. In his mind he saw it all—saw his brother come running in his eagerness to the gates of Godolphin Court, and then dark forms resolve themselves from the surrounding darkness and fall silently upon him.

Another half hour sat he there. The thing was done by now, and this assurance seemed to quiet him a little. Then came Nicholas again to babble of some possible mischance having overtaken his master. "What mischance should have overtaken him?" growled Lionel, as if in scorn of the idea.

"I pray none indeed," replied the servant. "But Sir Oliver lacks not for enemies nowadays, and his scarce safe for he to be abroad after dark."

Master Lionel dismissed the notion contemptuously. For pretense's sake he announced that he would wait no longer, whereupon Nicholas brought in his supper and left him again to go and linger about the door, looking out into the night and listening for his master's return. He had paid a visit to the stables and knew that Sir Oliver had gone forth afoot.

Meanwhile Master Lionel must make pretense of eating, though actual eating must have choked him. He smeared his platter, broke food and avidly drank a bumper of claret. Then he, too, feigned a growing anxiety and went to join Nicholas. Thus they spent the weary night, watching for the return of one whom Master Lionel knew would return no more.

At dawn they roused the servants and sent them to scour the countryside and put the news of Sir Oliver's disappearance abroad. Lionel himself rode out to Arwack to ask Sir John Killigrew bluntly if he knew aught of this matter.

Sir John showed a startled face, but swore readily enough that he had not so much as seen Sir Oliver for days. He was given by Lionel, whom he liked, as everybody liked him. The lad was so mild and kindly in his ways; so vastly different from his arrogant overbearing brother, that his virtue shone the more brightly by that contrast.

"I confess it is natural you should come to me," said Sir John. "But, my word on it, I have no knowledge of him. It is not my way to best my enemies in the dark."

"Indeed, indeed, Sir John, I had not supposed it in my heart," replied the afflicted Lionel. "Forgive me that I should have come to ask a question so unworthy. Set it down to my distracted state. I have not been the same man these months, I think since that happening in Godolphin Park. The thing has preyed upon my mind. It is a fearful burden to know your own brother—though I thank God he is no more than a half-brother—guilty of so foul a deed."

"How!" cried Killigrew, amazed. "You say that? You believed it yourself?"
Master Lionel looked confused, a look which Sir John entirely understood and interpreted entirely in the young man's favor. And it was thus and in that moment that was sown the generous seed of the friendship that was to spring up between these two men, its roots fertilized by Sir John's pity that one so gentle-natured, so honest, and so upright should be cursed with so villainous a brother.

(To be continued)

Hartselle News

CULTURE CLUB MEETS
The following announcement has been received by the members of the Hartselle Culture Club, and contains a brief history of the club, date of organization, officers for the club year, committee, etc. The announcement follows:

1924-1925
Organized September 1908, Federated April, 1919.

Club Motto: "Nunquam Non Paratus." Club Colors: Violet and white.

Officers—President, Mrs. J. B. Orr; vice president, Miss Claire Sherrill; secretary, Mrs. W. H. Weddle; treasurer, Mrs. J. R. Howell.

Prospectus Committee—Mrs. Robert Sobotka, Mrs. W. H. Lovelady, Mrs. Pierce Pattillo, Mrs. J. B. Orr.

Members—Mrs. W. M. Booth, Mrs. D. W. Day, Miss Corinne Doss, Mrs. L. S. Echols, Mrs. S. E. Gibson, Mrs. E. L. Hays, Mrs. John L. Houston, Mrs. A. P. Howell, Mrs. J. R. Howell, Mrs. John Kimbrough, Mrs. C. I. Lee, Mrs. W. H. Lovelady, Mrs. J. B. Orr, Mrs. P. Pattillo, Mrs. W. S. Poole, Mrs. J. H. Riddle, Mrs. J. L. Rountree, Mrs. E. H. Sharples, Miss Claire Sherrill, Miss Grace Sherrill, Mrs. F. O. Sherrill, Mrs. R. L. Sherrill, Mrs. Robert Sobotka, Mrs. A. Stephenson and Mrs. W. H. Weddle.

Honorary Members—Mrs. R. W. Anderson, Mrs. G. C. Walker.

The following program was observed on October 1, hostess, Mrs. W. H. Lovelady.

First Day Program

"The most we are, we hope to gain. The added charm within us grown. We owe to that magnetic chain Of better lives that touch our own."

Roll Call—The most interesting book we have read during vacation.

Foreword from the Prospectus committee—Paper: The past, present and future of our club, by Mrs. A. Stephenson.

Paper—Woman as a factor in our civilization, by Mrs. R. L. Sherrill.

Music.

Mrs. Riddle, Mrs. C. I. Lee and Miss Eloise Riddle gave interesting talks on travels taken by them during the summer. The club has now a total membership now of 27, with all members present at the initial meeting of the new club year with the exception of two.

The program over, a delicious ice cream was served. Mrs. J. B. Orr and Mrs. W. M. Booth were elected as delegates to the district meeting of Federated Clubs at Athens, October 14, 15 and 16.

The next meeting of the club will be on October 15, when Mesdames F. O. Sherrill and C. I. Lee will be joint hostesses.

COLORED BILLBOARDS INVADE REMOTE CHINESE HIGHWAYS

TECHOW—The bill board has invaded China, along with other western innovations, and is gradually making its appearance far in the interior and off the beaten tracks. Not only is it devoted to the recognized purpose of trying the merits of some article of merchandise, but occasionally it is employed in furthering moral uplift. For instance, in certain districts in the province of Shansi herculean policemen are portrayed on bill boards, in the act of seizing opium traffickers, apparently in the hope of bringing the lesson within the scope of the dullest intellect, while others show guardians of the law with enormous knives lopping off the heads of offenders.

Only words of praise can be said for bill boards which herald forth to the Orient the fact that flies are carriers of disease, even though the motive be recommendation of a certain preparation for their extermination. As for the others, colossal roosters or kingfishers proclaim special brands of

rain's miraculous patent medicines. An endless variety of electrical appliances are also advertised, pointing the way to enjoyment, health and comfort.

Sweden To Exercise Control Over Broadcasting Stations

STOCKHOLM—All radio broadcasting in Sweden is to be placed under government control, the government department of telegraphs and telephones operating jointly with the Swedish press in this connection.

The plan calls for the erection by the government of five broadcasting stations, situated at Stockholm, Gothenburg, Malmö, Sundsvall and Boden. These facilities will at all times be available for use by the government.

Programs given in Stockholm will be transmitted by wire to each of the other four stations, at which there will also be local programs and it is planned to provide 1,500 hours of entertainment a year. Storm warnings, messages of distress from the sea, etc., will in all cases take priority over entertainment.

You Can Now Try Nuxated Iron At My Expense

I First Compounded This Remarkable Remedy For My Own Neighbors And Their Praise Of It Had Spread So Rapidly That Now Millions Of People Are Using It—Read My Unusual Offer Below.

Years ago I began to wonder at the great number of my own friends and neighbors who were always complaining and doctoring, without ever seeming to get any better. Both working men and their wives were frequently all tired out in the evening, and a great many were weak, nervous and run-down. One had pains in the back and thought he had kidney trouble. Another had pains around the heart, palpitations and dizziness, and was sure he was suffering from heart disease. Still others had severe headaches, floating spots before the eyes, tender spots along the spine and a great variety of alarming symptoms.

For years I made a special study of this condition, consulting a great number of physicians and chemists. An immense number of investigations by physicians all over the country showed that three people out of every four you meet lack 100% iron in their blood. Lack of iron in the blood is the greatest of all de-vitalizing weaknesses. It is the iron in your blood that enables you to get the nourishment out of your food. Without iron, nothing you eat does you any good. Your heart, lungs and kidneys and all your vital organs get their nourishment from the blood stream, and when the blood lacks iron and is thin, pale and watery, you may suffer from the symptoms of a great number of diseases when the real and true cause of all your trouble is a lack of iron in the blood.

In the old days people often took metallic iron, which some physicians claim is not absorbed at all. In compounding this

NUXATED IRON ENRICHES THE BLOOD—GIVES YOU NEW STRENGTH AND ENERGY

Trial Coupon

Fill in this coupon with your name and address and take it to any drugist in your city. Deposit with him the price of one regular full-size bottle of Nuxated Iron. This is not a payment, but a deposit only. If you are not more than delighted with the results obtained by two weeks' use of Nuxated Iron, simply return the outside wrapper to your own drugist who will promptly refund your money. We will repay the drugist the full amount hereof upon receipt of the coupon and wrapper.
